The success of our religious education program depends upon the dedication and enthusiasm of you, our volunteers. It takes 80-100 volunteers to have an RE program like ours. Many of our volunteers do not have children, but we are also dependent on our parents. Every parent will be included in the parent association. This not only supports the program but builds community as well. In addition to being part of the association there are many other ways to contribute. Please select AT LEAST TWO areas in which you are able to help. Please indicate any areas where you could help. Those who volunteer as teachers or Youth Group Advisors need not indicate a second choice.
